Subpart 742.11—Production, Surveillance, and Reporting

SOURCE: 72 FR 53163, Sept. 18, 2007, unless otherwise noted.

742.1170 Performance monitoring and progress reporting.

742.1170-1 General.

Performance monitoring is a function of contract administration used to determine contractor progress towards achieving the goals and objectives of the contract and to identify any factors that may delay or prevent the accomplishment of those goals and objectives. Performance monitoring requires USAID personnel, particularly the cognizant technical officer, to maintain adequate knowledge of the contractor's activities and progress in order to ensure that USAID's objectives, as stated in the contract's Statement of Work, will be achieved.

742.1170-2 Applicability.

(a) This section applies to USAID non-personal, professional/technical services contracts exceeding the simplified acquisition threshold, but may be applied to other USAID contracts, if the contracting officer and requiring office determine that doing so is in the best interests of the Agency. The contracting officer must ensure that this determination is documented in the contract file. This section does not apply to personal services contracts.

(b) The underlying principles of FAR 48 CFR subpart 42.11 apply to USAID contracts and are inherent to this section. However, not all of the specific requirements and terminology in FAR 48 CFR subpart 42.11 are compatible with the types of technical assistance contracts usually awarded by USAID. Therefore, this section 742.1170 applies when the requirements of FAR 48 CFR subpart 42.11 do not meet USAID requirements or are otherwise not appropriate.

(c) The progress reports discussed in this section are separate from the performance evaluation reports prepared
